Selection | Potential Interventions | Technology Enabler applied in Intervention | ID-Link | Project Summary |
---|---|---|---|---|
 | Provide training on digital financial enablements | mobile phone application | WBG Gender Innovation Lab Women Connect Project | | TANZANIA: Business Women Connect project provides training to business owners on use of M-Pawa mobile savings platform to save money more securely and in some cases combined it with business training. |
 | Provide training on digital financial enablements | e-Wallets, computer, mobile phone | | JORDAN: Economic Opportunities for Jordanians and Syrian Refugees Program for Results (PRR) Component 6 provides training in accessing digital finance through SIM cards and e-Wallets. |
 | Build capacity of institutions serving women-owned businesses, including business associations and networks | technology innovation hubs, media outlets | | BANGLADESH: Private Investment & Digital Entrepreneurship Project, Sub-component 4 includes building entrepreneurship and innovation hubs in Bangladesh’s technological universities and business schools, specifically promoting digital entrepreneurship among women through media outlets. |
 | Build capacity of institutions serving women-owned businesses, including business associations and networks | | | SENEGAL: Digital Entrepreneurship Senegal project Component 1 strengthens CTIC Dakar’s (Mali West Africa) institutional capacity to launch globally competitive mobile and digital technology businesses. |
 | Improve financial literacy by providing training and facilitating networking | | | NIGERIA: Growth and Employment Project Component B II includes a Business Innovation & Growth (BIG) digital platform for SMEs to register themselves, receive business development services (BDS) and sectoral training. |
 | Improve financial literacy by providing training and facilitating networking | | | MULTI-REGION: New Generation of Women Entrepreneurs (Women X): NIGERIA & PAKISTAN Component 2.2.1 includes e-Learning modules and Component 2.1.1 includes virtual e-mentoring program. |
 | Deliver training and facilitate networking to start and grow businesses through increased peer-to-peer learning | mobile phones, interactive websites, 24/7 call center | | PAKISTAN: Sindh Agricultural Growth Project Component A.2 includes ICT-based technologies to deliver agriculture extension and marketing for farmers/producers, including farming dissemination through mobile phones, 24/7 call center, interactive websites, and international peer learning. |
 | Deliver training and facilitate networking to start and grow businesses through increased peer-to-peer learning | ICT training on technology use, mobile technology | | DRC: SME Development and Growth Project Subcomponent 1.2 uses training modules about Internet-based and mobile technology to promote women entrepreneurs’ future involvement in digital peer-to-peer support and networks. |
 | Deliver training and facilitate networking to start and grow businesses through increased peer-to-peer learning | digital platform | | KENYA: Industry and Entrepreneurship Project Component 1 includes interventions that support digital literacy and skills in growing sectors, including providing rapid technology skills trainings (boots camps) for youth and women in digital sectors, fostering links and investments in digital entrepreneurship. |
 | Deliver training and facilitate networking to start and grow businesses through increased peer-to-peer learning | ICT, computer programming, software development | | GEORGIA: National Innovation Ecosystem (GENIE) project Component 2 includes training programs focused on digital economy skills (computer programming, software development) and includes a dedicated ICT training program. |
 | Deliver training and facilitate networking to start and grow businesses through increased peer-to-peer learning | digital platform | | NIGERIA: Growth and Employment Project Component B II includes a Business Innovation & Growth (BIG) web-based platform for SMEs to register themselves, receive business development services (BDS) and sectoral training. |
 | Deliver training and facilitate networking to start and grow businesses through increased peer-to-peer learning | GIS data mapping | | WEST BANK AND GAZA: Economic Development across Fragile Communities project Component 1 works with Ministry of Tourism to teach entrepreneurs, especially women, about tourism industry and Component 2 provides trainings on how to use Geographic Information Systems (GIS) data to develop guided tours along Abraham Path. |
 | Deliver training and facilitate networking to start and grow businesses through increased peer-to-peer learning | | | ARMENIA: Women Entrepreneurship Project Component B.1 includes training and in-person (when possible) psychology-based Personal Initiative Training (PIT) to develop mindset associated with proactive, entrepreneurial behavior. |
 | Deliver training and facilitate networking to start and grow businesses through increased peer-to-peer learning | virtual, interactive trainings | | DJIBOUTI: Support for Women and Youth Entrepreneurship project Sub-component 2 includes Lab robotics and coding courses for young people from high schools and colleges. Participation in Pan African Robotic Competition, Africa Up Tunes, Entrepreneurship World Cup promotes mentoring, information-sharing, and role models. |
 | Help women cross over into male-dominated, profitable sectors (through training, mentoring, role models and information-sharing) | robots, computer coding/ programming | | EGYPT: Catalyzing Entrepreneurship for Jobs project Component 3 includes digital match-making platform to connect entrepreneurs with investors and provide training, mentoring, coaching and business development services, especially to women entrepreneurs. |
 | Enable women to benefit from existing mixed-sex networking and mentoring opportunities | digital platform | | AFRICA: XL Africa business accelerator for SMEs with digital products/services that offers webinars, global mentoring and angel investors platform. |
 | Enable women to benefit from existing mixed-sex networking and mentoring opportunities | interactive program website, webinars, digital platform | | MULTI-REGION: Digital Opportunity Trust, Digital Ambassadors Program that connects youth leaders with global networks. |
 | Enable women to benefit from existing mixed-sex networking and mentoring opportunities | | | ETHIOPIA: Women Entrepreneurship Development Project (WEDP) Component 1 includes small loans to WSMEs by participating MFIs. Sub-component 2 includes improved delivery of coaching, mentoring, and business information through ICT technologies to growth-oriented WSMEs eager to invest in more productive technology. |
 | Provide entrepreneurs with firm-level wrap-around services, such as targeted technical assistance, business advice, and coaching, along with cash grants or small loans (including for technology use and implementation) | digital platform, including for digital financial services (DFS) and e-commerce; mobile technology | | DRC: SME Development and Growth project Component 1 includes combination of training and cash subsidies to support entrepreneurial activities of youth and women. Technology modules include promotion of Internet-based and mobile technology to overcome asymmetry of information, access to financial services (online and mobile banking), and e-commerce. Sub-component 2.1 includes matching grants to established SMES, at least 40% of whom must be WSMEs. |
Provide entrepreneurs with firm-level wrap-around services, such as targeted technical assistance, business advice, and coaching, along with cash grants or small loans (including for technology use and implementation). KENYA: Youth Employment and Opportunities project Component 1 includes technical skills training, business support services and Sub-component 2.1 includes business plan competition, and cash prizes of either USD9,000 or USD38,000.

Provide entrepreneurs with firm-level wrap-around services, such as targeted technical assistance, business advice, and coaching, along with cash grants or small loans (including for technology use and implementation). SENEegal: Tourism and Enterprise Development project Component 2 includes trainings on business plan writing, multiple rounds of business plan competitions with cash prizes, and almost USD2m in grants for SMEs through the Senegal Market Access Facility.

Organize business plan competitions and entrepreneurship programs for WSMEs. KENYA: Youth Employment and Opportunities project Component 1 includes technical skills training, business support services and Sub-component 2.1 includes business plan competition, and cash prizes.

Organize business plan competitions and entrepreneurship programs for WSMEs. NIGER: Smart Villages for Rural Growth and Digital Inclusion project Sub-component 3.2.3. includes sub-grants of up to USD250,000 through a business competition plan for fintech companies & startups. Sub-grants cover seed funding, operation costs, costs to pilot new digital financial & nonfinancial solutions for women and farmers.

Organize business plan competitions and entrepreneurship programs for WSMEs. SENEgal: Tourism and Enterprise Development project Component 2 includes trainings on business plan writing, multiple rounds of business plan competitions with cash prizes, and almost USD2m in grants for SMEs through the Senegal Market Access Facility.

Support the development of digital incubators, accelerators, and early-stage funding programs. KENYA: Industry and Entrepreneurship Project Component 1 includes online platform to connect business incubators, accelerators and technology boot camp providers with global expertise, international networks, and investors.

Support the development of digital incubators, accelerators, and early-stage funding programs. BANGLADESH: Private Investment & Digital Entrepreneurship Project Component 4 includes developing digital entrepreneurship & innovation hubs in technological universities to increase market entry and growth rates of digital startups and create a gender-inclusive culture for digital entrepreneurship.

Support the development of digital incubators, accelerators, and early-stage funding programs. MONGOLIA: Support for Accountable, Responsible, and Transparent Government project Sub-component 2.3 includes an Apps Challenge competition for providing early-stage financing for providing innovative digital tools by SMEs that increase the number of female-targeted solutions in government priority sectors.

Support the development of digital incubators, accelerators, and early-stage funding programs. AFRICA: XL Africa business accelerator for SMEs with digital products/services that offers webinars, global mentoring and angel investors platform.

Support the development of digital incubators, accelerators, and early-stage funding programs. KENYA: Climate Innovation Center project (KICIC-funded by WBG infoDev) Crowdfund Investing Pilot to help entrepreneurs raise capital.

Leverage apprenticeships and on-the-job learning opportunities. ETHIOPIA: Women Entrepreneur Development Project (WEDP) includes business plan competitions in which top startup entrepreneurs receive smaller grants and established SMEs receive larger sized grants.

Leverage apprenticeships and on-the-job learning opportunities. MULTI-REGION: IFC Digital2Equal matches women with participating private companies (AirBNB, Uber, Facebook) to learn how their online platforms function, as a prerequisite or provider of services/products.

Provide gender sensitization training for men and couples that includes instruction on the benefits of women's economic participation. ETHIOPIA: Innovations in Financing Women Entrepreneurs (IFWE) Project Component 1 collaborates with the DigitalGirl to help women leverage digital tools to provide new opportunities for women to start and grow businesses.

Provide gender sensitization training for men and couples that includes instruction on the benefits of women’s economic participation. ARMENIA: Women Entrepreneurship Project Component B.1 includes virtual and in-person (when possible) psychology-based Personal Initiative Training (PIT) to develop mindset associated with proactive, entrepreneurial behavior.

Provide capital and business development skills through matching grants to WSMEs. TANZANIA: Business Women Connect project Component 2 includes tailor to all female business counselors with previous business experience who taught business skills trainings to WSMEs through activity-based learning and videos.

Provide capital and business development skills through matching grants to WSMEs. GEORGIA: National Innovation Ecosystem (GENIE) project includes Component 3 startup and Innovation matching grants to entrepreneurs. Coaching & technical assistance with applications and technology commercialization process provided by local & international experts.

Provide capital and business development skills through matching grants to WSMEs. INDONESIA: Farmer Capacity Development Through Digital Platform and Financing Sub-component 1.1 includes women-led facilitators trained in use of digital learning platform, including quizzes to test knowledge of farmers administered by trainers on tablets provided by the project.

Provide capital and business development skills through matching grants to WSMEs. SUDAN: SME Development and Growth Project Subcomponent 2.1 Enhancing growth and performance of SMEs includes matching grants to established SMEs, at least 40% of whom must be WSMEs. Matching grants were combined with technology modules that promote Internet-based and mobile technology to access information and financial services (online and mobile banking) as well as e-commerce.
Provide capital and business development skills through matching grants to WSMEs

Build capacity of institutions serving women-owned businesses

Build capacity of institutions serving women-owned businesses

Develop training programs for women (e.g., use of technology tools to access markets, trade logistics, supplier standards, etc.)

Design gender-sensitive trade/custom logistics, including digital based services

Design gender-sensitive trade/custom logistics, including digital based services

Enhance technology, skills, and production processes to integrate women-owned/-led firms into value chains

Enhance technology, skills, and production processes to integrate women-owned/-led firms into value chains

Link women to local, regional, and international markets through supplier databases

Link women to local and international markets through the Buy-Off event for survivors and training

Link women to regional and international markets through export promotion events and study tours

Increase women’s access to government procurement programs

Increase women’s access to government procurement programs

Project Summary

MEXICO: High Impact Entrepreneurship Program (HIEP) operated by the National Institute of the Entrepreneur (INADEM) included online surveys that innovative SMES complete to be considered for matching grants.

BANGLADESH: Private Investment & Digital Entrepreneurship Project; Sub-component 4 includes piloting entrepreneurship and innovation hubs in Bangladesh’s leading technologically universities and business schools, specifically promoting digital entrepreneurship among women through media based challenge program offering reduced prices of ITs and ITI’s rapid training programs.

Sénégal: Digital Entrepreneurship Senegal project Component 1 strengthens CTIC Dakar's (Mlab West Africa) institutional capacity to launch globally competitive mobile and digital technology businesses.

SENEGAL: Digital Foundations Project Component 3 seeks to lay foundation for high-growth digital industries through gender-inclusive, ecosystem-level support that includes promotion of digital skills and entrepreneurship. Emphasizes gender equity in recruitment and retention by ensuring inclusion of women in all decision-making bodies under the project.

MENA: E-Commerce for Women-Led SMEs in Algeria, Djibouti, the Arab Republic of Egypt, Jordan, Lebanon, Morocco, and Tunisia (We-Fi) expands on P168368. Sub-component 1.a recruits VMP advisors, coaches and train WSMEs. Sub-Component 1.b connects WSMEs online to local, regional and international VMPs.

SIEARLE: Lebanese Commercialization and Agribusiness Development Project (P154367) and Additional Financing (P170604) Sub-component B2 includes market access and coordination improvements through ICT or mobile based price information systems.

SUB-SAHARAN AFRICA (DRC, RWANDA, UGANDA): Africa Great Lakes Trade Facilitation Project Sub-component 2.1 includes using ICT reporting mechanisms & 3rd party IT monitoring to inform small-scale and women traders of requirements for cross-border trading, monitor enforcement of regulations, and address corruption, sexual harassment and physical violence in borderlands.

TANZANIA: TANCIS Project is a web-based system implemented by Tanzanian government and Investment Climate Facility for Africa that issues licenses, processes electronic customs declarations and electronic payments, issuance of receipts, monitoring movement of transit cargo and bond operations.

BENIN: Digital Transformation Project Component 1 increases access to broadband services in targeted rural communities and developing high potential value chains, including digitization of value chain payments, and improving the business climate (PPPs), with a focus on women’s entrepreneurship. Emphasizes gender equity in recruitment and retention of internal and external experts.

NIGER: Smart Villages for Rural Growth and Digital Inclusion project includes Sub-component 3.1 which facilitates digitization of payments made to farmers through Enterprise Resource Planning (ERP) software, including agricultural federations in the value chains to better manage relationship with co-operatives and for co-operatives in turn to better manage their relationship with member farmers in the value chain.

VIETNAM: Private Sector Competitiveness/Supplier Development Program includes Component 2.1 improved information on local suppliers made available through development and launch of a high-quality online supplier database.

MULTI-REGION: Intracen, the ICT-led Global Platform for Action on Sourcing from Women Vendors, seeks to increase the amount of corporate, government and institutional procurement awarded to women vendors. WSMEs receive training and market linkages opportunities through Buyer Mentor Groups and participate in an annual Women Vendors Exhibition and Forum.

MONGOLIA: Export Development Project component 2.1 includes producing and providing free e-Learning and online training modules on export promotion and supporting research; includes matching grants for product quality certification costs.

CHILE: ChileCompras is the Chilean Government e-procurement program that includes an e-commerce platform to fully support digital supplier processes for SMES.

Sénégal: Connecting National Procurement Needs with Women-Owned SMEs in Senegal project Component 2 includes skills development programs focused on technical advisory to improve themes important for procurement bidding (overall business development including related to technology, soft skills).

MEXICO: High Impact Entrepreneurship Program (HIEP) operated by the National Institute of the Entrepreneur (INADEM) included online surveys that innovative SMES complete to be considered for matching grants.

Pakistan: Sindh Agricultural Growth Project Component A2 includes introducing ICT-based technologies for delivery of agriculture extension and marketing to farmers/producers, including information dissemination through mobile phone, 24/7 call center and interactive websites.

Senegal: Digital Transformation Project Sub-component 2.2 includes improving outreach & quality of crop extensions & advisory services through online platforms and applications with local content.

Pakistan: Sindh Agricultural Growth Project Component A2 includes introducing ICT-based technologies for delivery of agriculture extension and marketing to farmers/producers, including information dissemination through mobile phone, 24/7 call center and interactive websites.

Vietnam: Private Sector Competitiveness/Supplier Development Program includes Component 2.1 improved information on local suppliers made available through development and launch of a high-quality online supplier database.
